

# HEXAGONS

Ann Tarabini

LearnHowToQuilt.com

You will learn how use paper hexagons to sew fabric hexagons by hand (English Paper Piecing) AND by machine (Y seams). We will cut out and sew a few hexagons in class to make a small “flower”. You may want to use your “sample” for another project (notebook cover, shopping bag, pillow, table topper...) or just use it as a practice piece. We will go over how to attach several of these flowers together to make a large quilt along with how to finish the edges.

If you have any questions about the class, please call me (510 -724 - 6665) or email me at [anntarabini@gmail.com](mailto:anntarabini@gmail.com).

## SUPPLIES NEEDED:

### Tools for Paper Patterns

**Paper** – 3 x 5 index cards

**Scissors** – for paper cutting

**Pencil and Ruler** – for drawing patterns

**OPTION:** Packages of precut hexagon pieces are available in quilt stores and online; any size will do but best to start with 1 inch or ¾ inch

**Fabric** – 100% cotton works best! You will have more than enough fabric to make one block with leftover fabric.

**Light/Medium** fabric – 1/8 yard (or small scraps)

**Medium/Dark** fabric – 1/8 yard (or small scraps)

### Notions

**Thread (matching color to your fabric)**, 100% cotton or cotton covered polyester

**Scissors** for fabric

**Pins** – any kind but thin glass head 1 3/8 inch with a super fine .50mm shaft are best

**Seam ripper**

### Sewing Machine

Bring your own machine for Y-seam or just sew by hand
